

# Smart Mini DC UPS

**KP3** | Keep Wi-Fi Power On  
10000mAh / 37Wh

# Multi-output

3\*DC + 1\*USB outputs support powering up 4+ devices

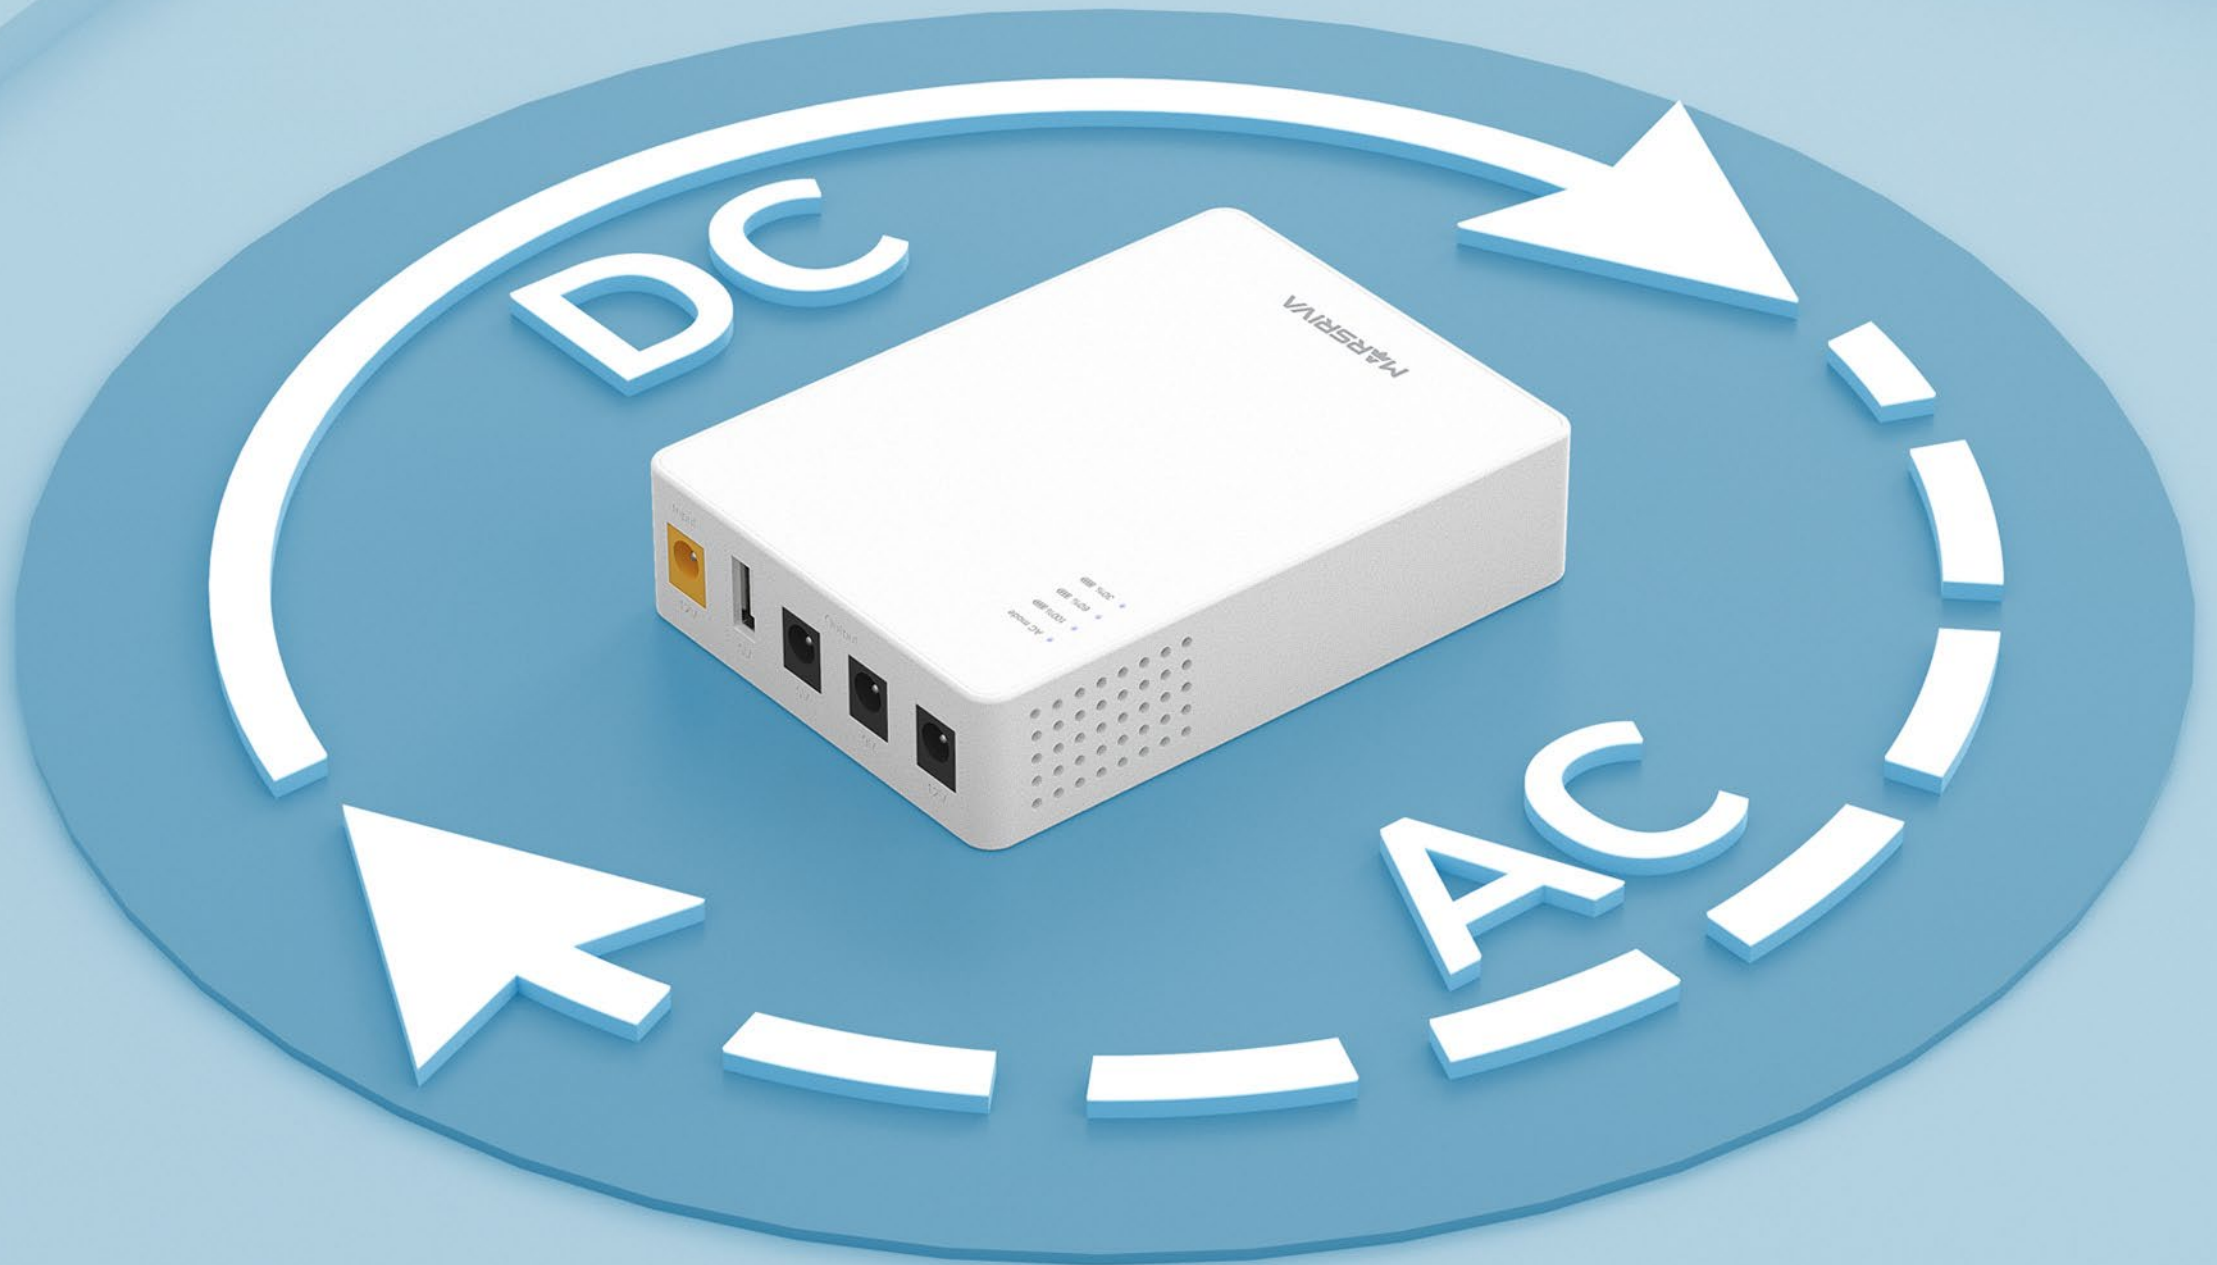

# High-capacity Battery

10000mAh high capacity battery supports your devices working longer hours

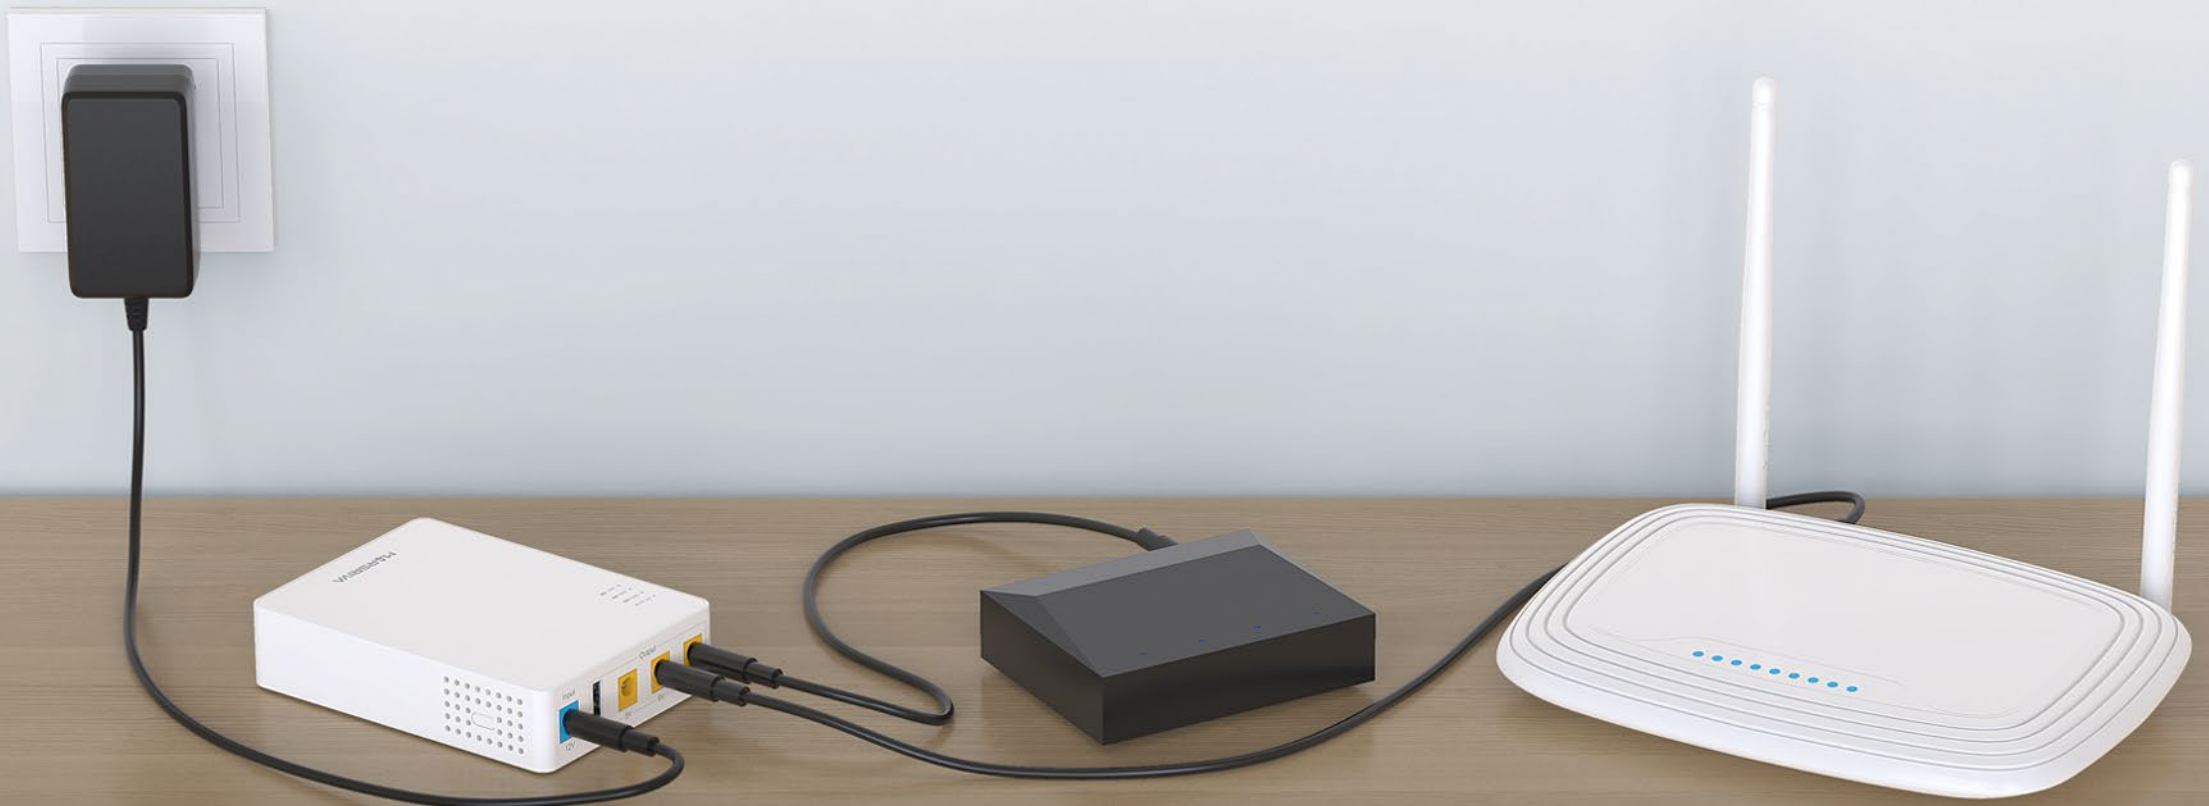

# AC to DC 0 ms Transfer

Keep your devices stay working when UPS shift from  
AC mode to battery mode

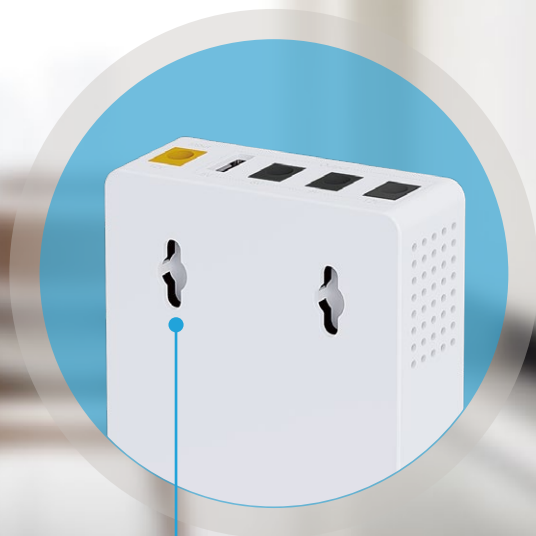

# Broad Compatibility

With 5V / 9V / 12V DC and USB 5V output  
KP3 is compatible with most of the digital devices

# Place It Anywhere

With wall-mount slots on the back, you can mount your KP3 on a wall easily

Wall-mount slots

# Advanced Temperature Control

Air cooling system provides maximum heat dissipation  
ensuring long-term stability of the UPS

# Stay Safe From Fire

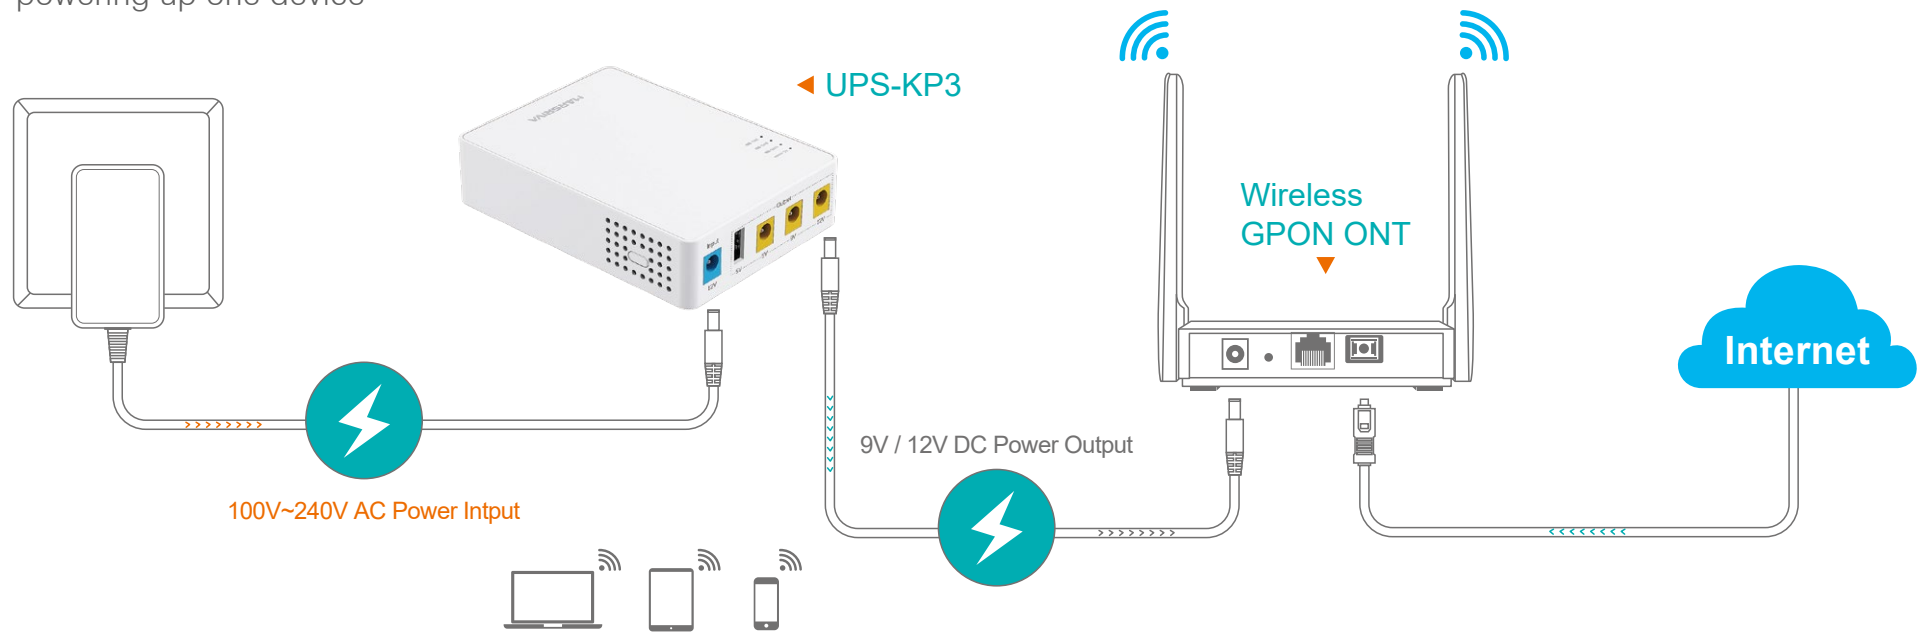

V-0 flame resistance product housing secures you and your property

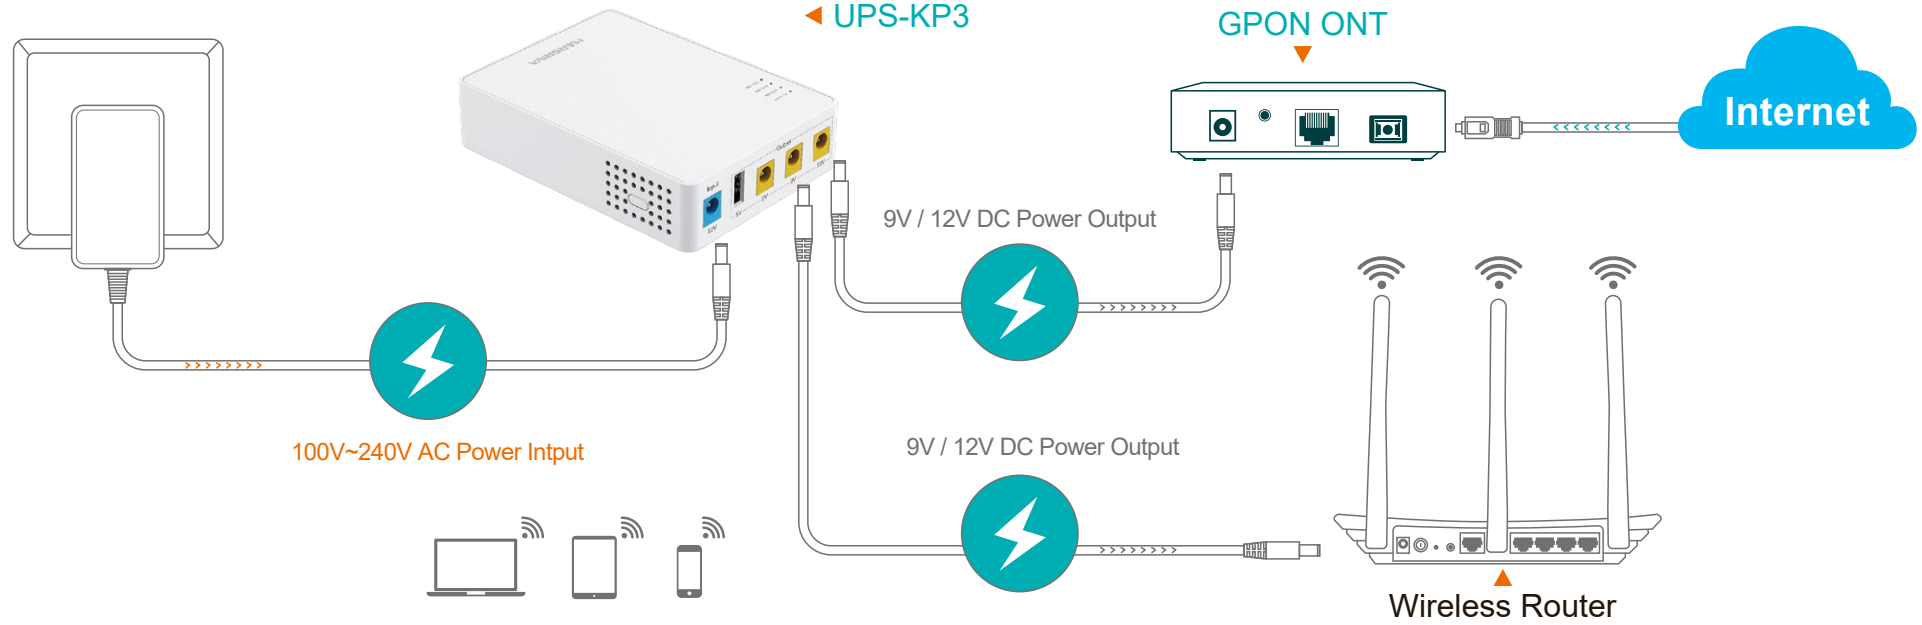

### Typical topology 1

powering up one device

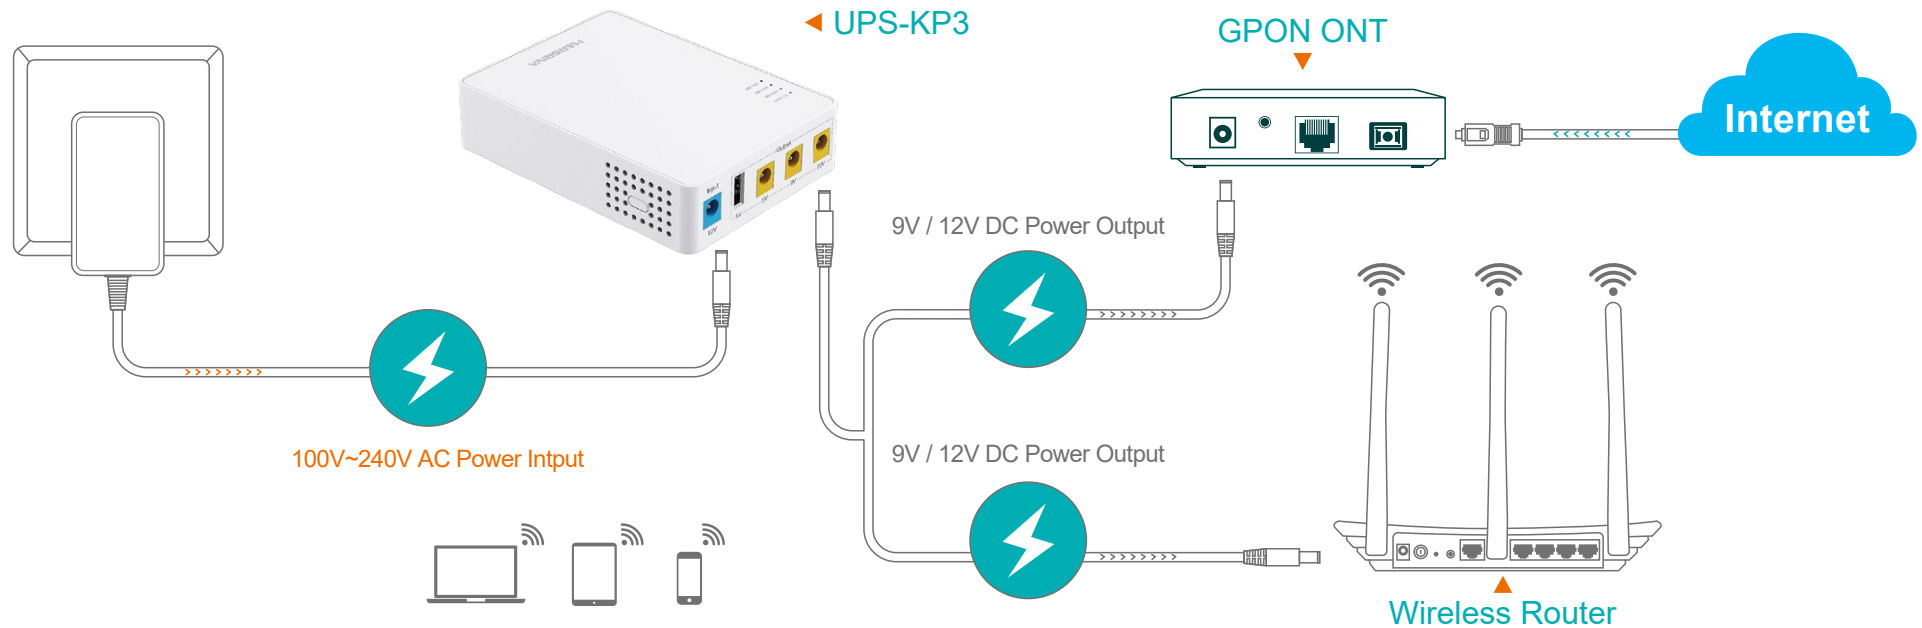

### Typical topology 2

powering up two devices with different voltage

### Typical topology 3

powering up two devices with same voltage

# Specification

Name	Smart Mini DC UPS
Model	KP3
Battery Capacity	10000mAh/3.7V 37Wh
Input	DC 12V / 2.0A
Output	DC 12V / 1.5A * 1 ports DC 9V / 2.0A * 1 ports DC 5V / 2.0A * 1 ports USB 5V / 2.0A * 1 ports
Total Output	18W (Max.)
Unit Dimension	115mm * 83mm * 27mm
Net Weight	245g
